Guide to accessing your Class Blog on Purple Mash:

1) Login to Purple Mash as normal. Choose the ‘Sharing’ tab and select ‘Shared Blogs’. You should then see your class blog below.

2) Your class blog may look something like this! Press on the green plus to add a post. You can also add pictures to your post! You only need to give your post a title and content. You do not need to put anything in the summary. Once submitted, it won’t appear straight away. Your teacher will approve your post before it is shared with the rest of the class.
3) You can also comment on existing posts—click on the title of the post, and scroll down to add your comment. Remember, your comment won’t be seen by others until your teacher approves it.
