Dear Parents / Carers

As a school we have subscribed to a new programme called Timetable Rockstar to support the children in learning, practising and consolidating their recall of multiplication facts. After a successful trial period, we would like to invite children from Years 1 to Year 6 to begin using Timetable Rockstar at home for a recommended time of 10 minutes a day. Timetable Rockstar is a fun and challenging programme designed to help student’s master timestables up to 12x12. Pupil progress can be monitored by the class teacher, enabling targeted timetables if necessary. All children have successfully logged on this week and trialled the programme.

If you wish to use the program at home;

- Go to https://ttrockstars.com/ or download the Timetables Rockstar App from the App store.
- You can create a bookmark or favourite for this web address.
- Go to Login (these details are in your children's reading diaries). Once you are logged in, you will be asked to create an Avatar and choose a rockstar name for yourself.
- You now need to choose your venue. The Garage and Arena are specifically set questions set by your class teacher. The Festival and Studio have timestables questions randomly selected up to 12x12.
- Your child will be challenged to see how many timestables questions they can answer in a set amount of time. As they complete challenges, they can earn Rock Status! We recommend using this programme for 10 minutes a day.
- For more guidance and help, please see https://ttrockstars.com/

Thank you for helping your child practice their timestables!

Yours Sincerely

Rebecca Royle
Maths Leader
